Belly-Rippers, Surgical Innovation and the Ovariectomy Controversy Sally Frampton,2018-12-30 This open access book looks at the dramatic history of ovariectomy, an operation to remove ovarian tumours first practiced in the early nineteenth century. Bold and daring, surgeons who performed it claimed to be initiating a new era of surgery by opening the abdomen. Ovariectomy soon occupied a complex position within medicine and society, as an operation which symbolised surgical progress, while also remaining at the boundaries of ethical acceptability. This book traces the operation's innovation, from its roots in eighteenth-century pathology, through the denouncement of those who performed it as 'belly-rippers', to its rapid uptake in the 1880s, when ovariectomists were accused of over-operating. Throughout the century, the operation was never a hair's breadth from controversy.

British Women Surgeons and their Patients, 1860-1918 Claire Brock,2017-02-23 A rich new examination of the cultural, social and self-representation of the woman surgeon in Britain from 1860 to 1918. This title is also available as Open Access.

The Condition Of The Working-Class In England In 1844 Frederick Engels,2023-08-01 *The Condition of the Working-Class in England in 1844* by Frederick Engels is a powerful indictment of the Industrial Revolution's detrimental impact on workers. Engels meticulously demonstrates how industrial cities like Manchester and Liverpool experienced alarmingly high mortality rates due to diseases, with workers being four times more likely to succumb to illnesses like smallpox, measles, scarlet fever, and whooping cough compared to their rural counterparts. The overall death rate in these cities far surpassed the national average, painting a grim picture of the workers' plight. Engels goes beyond mortality statistics to shed light on the dire living conditions endured by industrial workers. He argues that their wages were lower than those of pre-industrial workers, and they were forced to inhabit unhealthy and unpleasant environments. Addressing a German audience, Engels' work is considered a classic account of the universal struggles faced by the industrial working class. It reveals his transformation into a radical thinker after witnessing the harsh realities in England. *The Condition of the Working-Class in England in 1844* remains an essential resource for understanding the hardships endured by workers during the Industrial Revolution. Engels' meticulous research and impassioned arguments continue to shape discussions on labor rights, social inequality, and the historical agency of the working class.

Humanizing B2B Paul Cash,James Trezona,2021-04-26 If you want to move products, you need to move people. And if you want to move people, you need to move minds. This is what modern B2B marketing is all about. It's time to wake up to the power of branding, purpose, stories, emotion, people and culture to drive growth. There is something incredibly exciting happening in B2B land. Freed from a narrow focus on performance marketing, brands are becoming more interesting and more relevant. This book brings together the latest thinking on humanized B2B marketing, to help leaders and their businesses grow, dominate their categories, and become meaningful in today's demanding world. PAUL CASH is a creative entrepreneur and storyteller on a personal mission to humanize B2B marketing. Recognized as one of the Top 20 most influential B2B marketers, he is the founder of Rooster Punk, the go-to agency for B2B storytelling. JAMES TREZONA is a strategist, marketer and MD of Rooster Punk. He uses the power of storytelling to empower businesses to reap the rewards of putting purpose at the heart of their business.

Western Diseases Norman J. Temple,Denis P. Burkitt,2012-12-06 Sir Richard Doll, FRS, FRCP ICRF Cancer Research Studies Unit Radcliffe Infirmary, Oxford, UK The twentieth century has seen few changes more remarkable than the improvement in health that has occurred nearly everywhere, most spectacularly in the economically developed countries. In these countries improved nutrition, better housing, the control of infection, smaller family sizes, and higher standards of education have brought about a situation in which more than 97% of all liveborn children can expect to survive the first half of the three score years and ten that formerly was regarded as the allotted span of life. From then on, however, the position is less satisfactory. Some improvement has occurred; but the proportion of survivors who die prematurely, that is under 70 years of age, varies from 25% to over 50% in men and from 13% to 28% in women, the extremes in both sexes being recorded, respectively, in Japan and Hungary. Most of these deaths under 70 years of age must now be called premature, even in Japan. For most of them are not the result of any inevitable aging process, but instead are the consequences of diseases (or types of trauma) that have lower-often much lower-age-specific incidence rates in many of the least developed countries.

Clinical Ocular Pharmacology Jimmy D. Bartlett,Siret D. Jaanus,1995 Written by experts in the field, this comprehensive resource offers valuable information on the practical uses of drugs in primary eye care. Discussions of the pharmacology of ocular drugs such as anti-infective agents, anti-glaucoma drugs, and anti-allergy drugs lead to more in-depth information on ocular drugs used to treat a variety of disorders, including diseases of the eyelids, corneal diseases, ocular infections, and glaucoma. The book also covers ocular toxicology, focusing on drug interactions, ocular effects of systemic drugs, and life-threatening systemic emergencies.

Hidden Histories of the Dead Elizabeth T. Hurren, 2021-02-25 Examines the post-mortem journeys of bodies, body-parts, organs, and brains in modern British medical research. This title is also available as Open Access.

Romance, Poetry, and Surgical Sleep E M Papper, 1995-05-19 Pain and suffering, once associated with punishment for sin, became regarded as a purposeless evil that was hostile to human welfare. The works of Thomas Beddoes, Coleridge, and Shelley embody the change in attitude toward suffering and lay the groundwork for the general use of anesthesia in modern medicine. Papper contends that there was no real societal readiness to treat or prevent pain until the idea of the worth of the common man or woman was established by the upheaval of the French Revolution. The humanitarian concepts that we take for granted were relatively recent developments in Western society and were associated with the recognition of the importance of the individual.

The Lancet, 1894

Medical Directory, 1997 A listing of medical practitioners registered with the General Medical Council. Includes England, Scotland, Wales, and Northern Ireland. THE EVANGELICAL MAGAZINE Jackson, Walford, and Hodder, 1866

the scottish congregational magazine The Scottish Congregational Magazine. New Series-Vol.XVI, 1866

The Oxford Handbook of the History of Psychology: Global Perspectives David B. Baker, 2012 The science and practice of psychology has evolved around the world on different trajectories and timelines, yet with a convergence on the recognition of the need for a human science that can confront the challenges facing the world today. Few would argue that the standard narrative of the history of psychology has emphasized European and American traditions over others, but in today's global culture, there is a greater need in psychology for international understanding. This volume describes the historical development of psychology in countries throughout the world. Contributors provide narratives that examine the political and socioeconomic forces that have shaped their nations' psychologies. Each unique story adds another element to our understanding of the history of psychology. The chapters in this volume remind us that there are unique contexts and circumstances that influence the ways in which the science and practice of psychology are assimilated into our daily lives. Making these contexts and circumstances explicit through historical research and writing provides some promise of greater international insight, as well as a better understanding of the human condition.

Who's who Henry Robert Addison, Charles Henry Oakes, William John Lawson, Douglas Brooke Wheelton Sladen, 1949 An annual biographical dictionary, with which is incorporated Men and Women of the Time.

The Order of Odd-Fish James Kennedy, 2010-02-09 JO LAROCHE HAS lived her 13 years in the California desert with

her Aunt Lily, ever since she was dropped on Lily's doorstep with this note: This is Jo. Please take care of her. But beware. This is a dangerous baby. At Lily's annual Christmas costume party, a variety of strange events take place that lead Jo and Lily out of California forever—and into the mysterious, strange, fantastical world of Eldritch City. There, Jo learns the scandalous truth about who she is, and she and Lily join the Order of Odd-Fish, a collection of knights who research useless information. Glamorous cockroach butlers, pointless quests, obsolete weapons, and bizarre festivals fill their days, but two villains are controlling their fate. Jo is inching closer and closer to the day when her destiny is fulfilled, and no one in Eldritch City will ever be the same.

Focal Neuropathies, 2024-04-30 This volume summarizes research and treatment on focal neuropathies to update clinicians on nerve biology and new diagnostic techniques to guide investigation and treatment of mononeuropathies. The book explores research broadly applicable to all types of mononeuropathies as well as individual mononeuropathy syndromes. Chapters on individual mononeuropathies include anatomy, causes, controversial diagnoses, and current or potential future treatments. - Summarizes new research on treatment for focal neuropathies - Differentiates and advises on controversial diagnoses - Includes neuropathies by location as well as syndrome or type of neuropathy - Covers biology, diagnosis, imaging, etiology, and treatment

Unveiling the Energy of Verbal Artistry: An Emotional Sojourn through **Bristol Keir Surgical**

In a global inundated with screens and the cacophony of instantaneous interaction, the profound energy and mental resonance of verbal artistry usually fade in to obscurity, eclipsed by the regular barrage of noise and distractions.
